## Venter 4 x 4 Trailer Range

The 4 x 4 range of trailers available from Venter are the best value for money, with no compromise on quality and safety. For decades Venter has been innovating and producing superior trailers for local and overseas markets. From the standard Bushbaby to the extra equipped Offroader one can expect a trailer built to last. All of the new trailers sport the very spacious front nosecone capable of accommodating an 80 litre fridge. The all steel sturdy roof rack provides extra storage facilities and can easily carry a large tent.

The Bushbaby trailer has had steady improvements added over the years, making this a superb off-road trailer, well-suited to harsh outdoor conditions. With addition of the extra features this trailer really shines as an efficient space utilising vehicle. It comes in an unbraked and braked version.

The Botswana trailer is a mid-range unbraked trailer. The load capacity, larger storage volume and bigger springs enable it to cope with those larger 4 x 4 challenges.

The Offroader is the largest in the range and comes standard with brakes and heavy-duty coupler. The version with extra features is designed for serious outdoor adventurers. This trailer has much to offer, with the additional extra features.

If you are an outdoor enthusiast who likes to venture into the outdoors, then this trailer range is perfect for the task.
