## LET YOUR HORSE TRAVEL IN STYLE

They say that dogs are a man's best friend, but when it comes to an enduring bond between animals and humans, horses beat dogs hands - or rather hooves down. Horses have been a part of our life for centuries, be it for travel, work, sport or leisure. Horses are more than pets, to people who love them, they are family. And now, finally we have the opportunity to pay back this noble creature - by letting him travel in style for a change.

### INTRODUCING THE VENTER HORSE TRAILER.

Designed with one thing in mind - your horse. These safe comfortable trailers make light work of what could be a stressful situation for your animal. Let's face it, animals don't like to be transported. All that rocking, bumping, unsteadiness is enough to unnerve the most seasoned traveler. That is why, when we designed our trailers we made sure that every possible risk was addressed. From the breast and rear bars that secure the horses, to the non-slip heavy duty durable rubber flooring, ensuring they are always on a steady footing. We've even added padded vinyl partitions that offer extra protection for those bumpy rides.

### COMFORT AND SAFETY

With the horses safely secured, we then looked to his comfort. We installed large windows to provide adequate natural light and roof vents to keep the horses cool.

What's more. All precautions were taken to eliminate stressful noise and vibration. Not even the groom was ignored in these practical trailers, as all trailers are fitted with a lockable seat cabinet with its own door. And if you purchase the Royal Horse Box, it too has a choice of exits, as there are ramps at the front and rear.

The trailer body too, is designed for the utmost comfort and safety, as well as manageability. For a start, the auto-reverse coupler makes maneuvering the trailer as easy as steering a thirsty horse to water. Two independent Alko-Trailco axles ensure maximum stability and eliminate jarring. All of these features are encased in a sturdy body of 0.9mm corrosion resistant, rigidised zinc galvanised or electro-galvanised sheet steel, supported by a rigid floor construction of 2mm thick plates. The chassis and A-frame are constructed from heavy duty channels. All this ensures a comfortable, safe and, dare we say, aesthetically pleasing ride.

It's no wonder Venter Horse Trailers are approved by horse owners around the country, because they know that when they want to get their horses from A to B, the best way is to go straight to Venter.

## Two-Berth Horsebox

Spare wheel holder

Secure front window

Jerry can holder

# Two-Berth Horsebox

Interior fluorescent light

Front storage

Rear door

fluorescent

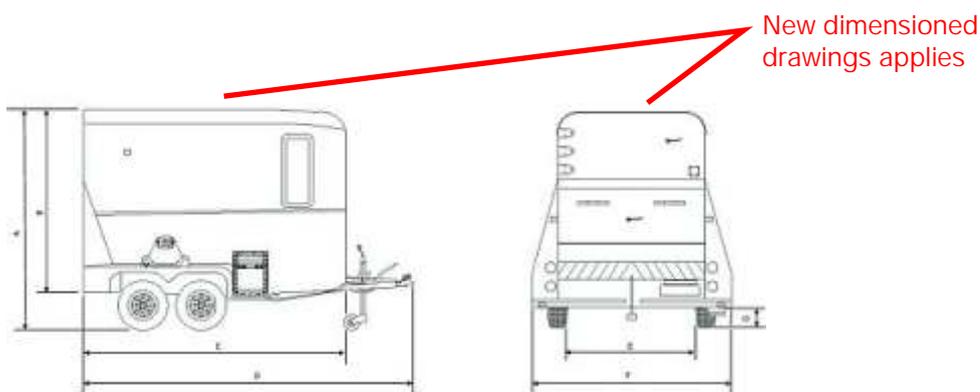

# Two-Berth Horsebox

## Features

- Front nose sports a new streamlined shape reducing wind resistance
- Improved ramp, fitted with double gaslifts and push-down foot pedal, for easier opening
- Interior light fitting
- Jerry can holder
- Large lockable rear door fitted above ramp, opening 270 deg
- Robust chassis, A-Frame and floor plates
- Three large windows, middle one protected by a sheet steel screen, two outside windows are fitted with open/close sliding facility
- Two air vents fitted on the roof of the trailer
- Lockable, easily accessible spare wheel holder, fitted on top of modern improved mudguards
- Double jockey wheel 200mm dia
- Heavy duty rubber floor mats
- All doors and ramp have padlockable facilities
- Alko-Trailco coupler and axles
- Partition between horses of modern designed perforated steel screen, allowing horses to see each other and gain confidence
- Left and right insides of padded vinyl covered panels, fitted with fold-away beds
- Adjustable padded breast bars and rear padded panels to ensure safety of horses in transit
- Front storage compartment for fodder, grooming bags etc
- Body constructed from corrosion resistant rigidised zinc galvanised or Electro-galvanised steel, prime coated and quality white final paint is applied
- Convenient front door for groom
